

ACCESSING CAREERS THROUGH EDUCATION HOUSING WALKTHROUGH GUIDE

Before you agree to rent an apartment you should check everything inside. This checklist should help you not forget the smallest detail. You should take a clock radio/alarm and a camera to help you out. You don't want to move into an apartment with too many problems and then get charged for them later. Check for:

- Stains on wall/ceiling
- Broken doors
- Appliances working
- Carpet stains
- Electric sockets working
- A/C works
- Faucets working
- Cabinets
- Bugs/cockroaches
